Hintco Roadshow on 2nd H2Global tender

São Paulo, Brazil

25.04.2025

HINTCO ROADSHOW

Bridging Hydrogen Supply and Demand

Hintco has launched its second tender and is coming to **São Paulo, Brazil** to connect with producers of hydrogen and its derivatives in an open, non-discriminatory workshop format.

The event is accompanying the [tender documents for the 2nd H2Global tender](#) published on February 19th, 2025, and give producers the opportunity to clarify possible questions regarding the auction process as well as eligibility criteria and bid preparation.

The event is held in a **hybrid format** and will also be streamed online. To participate in the tender, an attendance of the workshop is helpful, but **not mandatory**.

What to expect:

- **Presentation of the H2Global mechanism and upcoming tender design**
- **Explanation of eligibility criteria and participation steps:**
 - Requirements for participation and bid preparation
 - Timelines and process
- **Direct engagement with Hintco experts for Q&A**

Who should attend?

Producers of hydrogen and derivatives (RFNBOs) interested in participating in the upcoming Hintco HPA auctions

Industry representatives involved in the **production-side value chain** of renewable hydrogen and derivatives (RFNBOs)

Register Now!

To participate in person or hybrid in this event, a **registration is required**, and participation is subject to confirmation. Only producers of RFNBOs and industry stakeholders involved in the production-side value chain of RFNBOs are admitted to this workshop to keep the format as targeted as possible.

In case of a virtual participation, a personalised link will be provided via email.

Secure your place at one of our roadshow events and be part of shaping the hydrogen economy:
